**Imperial Subjects as Global Citizens** Jul 24 2019 Lincicome offers a new perspective on Japanese educational debates and policy reforms that have taken place under the guise of internationalization since the mid-1980s. By contextualizing these developments within a historical framework spanning the entire twentieth century, he challenges the argument put forward by education officials, conservative politicians, and their supporters in the academy and the business world that history offers no guide for addressing the educational challenges that face contemporary Japan. Combining diachronic and synchronic approaches, Lincicome analyzes repeated attempts throughout the twentieth century to Ointernationalize educationO (/kyoiku no kokusaika/) in Japan. This comparison reveals important similarities that transcend educational policy to encompass Japanese conceptions of individual, national, and international identity; relations between the individual, the nation, the state, and the international community; and the type of education best suited to negotiating multiple identities among the next generation of Japanese subject-citizens.

**Kindred** Nov 27 2019 From the New York Times bestselling author of Parable of the Sower and MacArthur "Genius" Grant, Nebula, and Hugo award winner The visionary time-travel classic whose Black female hero is pulled through time to face the horrors of American slavery and explores the impacts of racism, sexism, and white supremacy then and now. "I lost an arm on my last trip home. My left arm." Dana's torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner's plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead's The Underground Railroad and Ta-Nehisi Coates's The Water Dancer, Butler takes one of speculative fiction's oldest tropes and infuses it with lasting depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. "Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, Kindred is controlled and precise" (New York Times). "Reading Octavia Butler taught me to dream big, and I think it's absolutely necessary that everybody have that freedom and that willingness to dream." —N. K. Jemisin The series adaption from FX premieres December 13 on Hulu. Developed for television by writer/executive producer Branden Jacobs-Jenkins (Watchmen), executive producers also include Joe Weisberg and Joel Fields (The Americans, The Patient), and Darren Aronofsky (The Whale). Janicza Bravo (Zola) is director and an executive producer of the pilot. Kindred stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin.
